CODEMARK EXPLAINED

Codemark is a voluntary product certification scheme designed for homeowners and provides a transparent and reliable method to demonstrate compliance with the New Zealand Building Code.

COMPLIANCE

Codemark certified products are recognised as “deemed to comply” with the New Zealand Building Code. If the products details are in accordance with the Codemark certificate then the Building Consent Authorities must be accepted.

CODEMARK CERTIFICATION PROCESS

The process of obtaining Codemark Certification for Thermospan, Thermopanel, Aspirespan® and Aspirepanel® comprised of a comprehensive examination by independent professionals, confidential test reports, assessments, and engineering statements. Codemark is regulated by the Ministry of Business, Innovation and Employment (MBIE), ensuring credibility in the certification process.
